# Dereck Angeles

(801) 472-3664     dereck1998angeles@gmail.com     github.com/DereckAn

## Education

**Ensign College**     **Salt Lake City, Utah**
*Bachelor of Science in Software Engineering*     *Expected April 2024*
GPA: 3.57

## Skills

**Frameworks:** React, NextJS, Flutter, Fast API
**Languages:** Python, Java, JavaScript, Dart, SQL, Bash
**Tools:** Git, Supabase, Firebase, AWS, GitHub Actions

## Experience

**Math Teacher Assistent**     **Salt Lake City, UT**
*Ensign College*     *July 2021 — Present*

- Categorized test data from more than 300 students and provided individualized feedback to support their academic growth.
- Identify students' reasoning, through grading homework of more than 150 students.
- Provided individualized advice and support to students to help them achieve their academic goals.
- Collaborated with professors to develop course materials and assignments for undergraduate courses.

**Custodial**     **Provo, UT**
*Missionary Training Center*     *Jun 2019 — Jul 2020*

- Managed building cleaners and chemicals to keep 500 people safe and comfortable.
- Planned bi-weekly building care activities with manager and 20 cleaning staff in order to accommodate new people.
- Maintained daily hygiene, health, and safety standards in work areas so teachers and students gained a better learning experience.

**Full-time Volunteer Missionary**     **Barranquilla, Colombia**
*The Church of Jesus Christ of Latter-Day Saints*     *Nov 2016 — Nov 2018*

- Conducted weekly meetings with 10 members for over a year to improve goal clarity and motivation.
- Reported daily to leaders, providing a comprehensive description of progress and objectives accomplished.
- Developed a daily plan to identify individuals in need of counseling and provided support as necessary.
- Collaborated with local communities to provide humanitarian aid and Spiritual support.

## Projects

**Spotify Clone**     *GitHub*

- Acquired fundamental knowledge of React and utilized it to build a Spotify replica.
- Built a music sharing website that utilizes JavaScript and Python to download music from YouTube, store it in Supabase, and present it on the web page.
- Configured email notifications with authentication.

**Messenger App**     *GitHub*

- Obtain expertise in widget and state handling, employed native device functionalities, and integrated database management.
- Linked up with a Firebase database to retain user data and enforced appropriate authentication.
- Expand skills in creating animations and expanded my experience in Front End development, with a focus on responsive design.
